

The New Age of Sound

ayon

Condor

Master Series

The Condor is a non-compromising speaker system designed to reproduce the ambiance of concert halls, "live" performances and high quality studio recordings with striking realism in your home.

This design takes advantage of the ultra-low distortion and wide bandwidth of the individual drivers to achieve stunning resolution and transparency.

A remarkable reproduction of inner detail, superb phase and time accuracy is unrivalled.

Ayon Loudspeaker Design

Ayon loudspeakers are designed to provide open, dynamic, lifelike sound, powerful bass, highly detailed ambient retrieval and tonal neutrality.

Combining high efficiency, linear impedance behaviour and minimal phase distortion, they are equally suited for single-ended triode, tube or transistor amplification. Synergistic design solutions and perfect craftsmanship make them outstanding in more than one regard.

Innovative technologies, advanced design and the best available components have been combined by our skilled designers to create loudspeakers which embody "The New Age of Sound" in audio technology.

The combination of highest quality components, technological breakthroughs and uncompromising manufacturing standards represent a unique price/performance ratio on the market.

Specifications:

System - IPRCS	3-way Inverted parabolic resonance correction system
Cabinet	Resonance optimized
Driver Complement	1" Revelator - Ring Radiator 5" ATC Midrange 2 x 9" Eton Woofer
Impedance	6 Ohm
Sensitivity (1W / 1m)	91 dB
Recommended Amp Power	20 - 250 Watt
Frequency Response	30 Hz - 47 kHz / -3 dB
Single-Wire Terminal	WBT
Internal Wire - Ayon Audio	Harmonically signal flow distance wiring
Recommended connection (+) for tube amps (4, 8, 16 Ohm)	8 Ohm
Dimensions (HxWxD)	130x31x54 cm
Weight	70 kg
Cabinet finish:	Birch variegated - satin, Bubinga variegated - satin & Rosewood - satin
