

Thor

The Thor offers a single-ended / pure Class-A operation with a phenomenal 3D spacious soundstage. Precise low frequency, outstanding dynamic and a life-like midrange are also typical for this superb amplifier.

Single-Ended Triode Amplification

Ayon's state-of-the art triode vacuum tube amplifiers provide music lovers worldwide with an authentic listening experience in their home environments.

They offer abundant power resources unavailable from conventional designs while fully maintaining and expanding the traditional qualities of the single ended topology.

Research and development of our triode amplifiers is conducted by a team of renowned experts at our high end manufacturing facility in Austria.

Absolute tonal neutrality, outstanding dynamics and a so far unknown level of resolution are trademarks of our amplifiers, complemented by an explosively fast and uncoloured bass and high power triode performance.

Their sound staging and ambient retrieval equals the finesse of the legendary low power triode designs while leaving behind their disadvantages of high distortion, coloration and limited dynamic reserves.

Advanced zero feedback class A circuitry and cutting edge output transformer design make Ayon triode amplifiers recreate music with irresistible magic and authenticity.

Specifications:

Class of Operation	PSE Triode, Pure Class A
Tube Complement	2x 6C33, 3 x 6H30
Load Impedance	4 & 8 Ohms
Negative Feedback	0dB
Bandwidth	12Hz-70kHz / - 3 dB
Output Power	40 Watt
Peak Output Power	70 Watt
Input Impedance	100K Ohm
S/N ratio	92 dB
Hum	0.003 V
Frequency Response	15 Hz - 50 kHz / -1 dB
Distortion at 1W	< 0,3%
Inputs	RCA & XLR
Dimensions (WxDxH) cm	34x53x25 cm
Weight per unit	37 kg

Finish: black
